

With an area of 3,000 sqm, the Panoramico Tier runs along the upper level of the Central Arena.

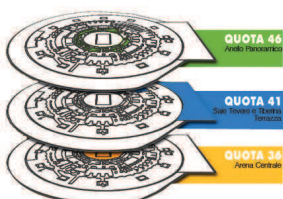

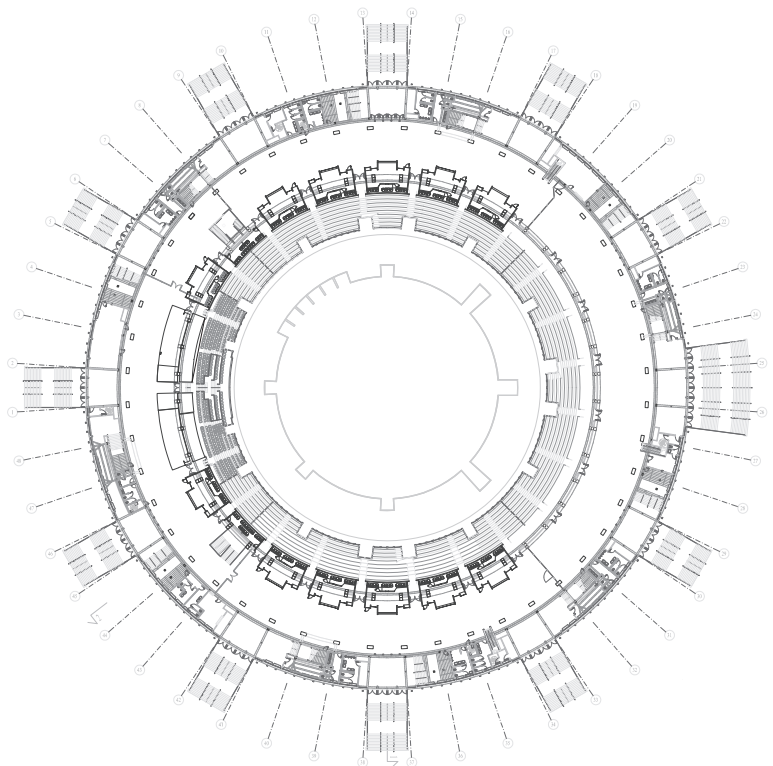

It is a modular venue which can be arranged into smaller spaces in accordance with the event needs. This makes it ideal for hosting fairs, exhibitions, meetings and gala dinners: in this latter configuration it can seat up to 2,000 people.

The Panoramico Tier has an excellent position - at the meeting point of the external access stairs to the PalaLottomatica - for hosting welcome areas, registering guests and setting up welcome coffee areas or support cloakrooms for large company events that are hosted in the Central Arena.
